President & CEO Biography

Carlos Diego de Araújo began his career as a Civil Police Chief in the state of Santa Catarina, where he specialized in combating money laundering crimes. In 2014, he was elected Vice President of the National Association of Police Chiefs of Brazil.

He is currently the President & CEO of the Brazilian Institute of Cyber Defense (IBDCYBER) and Executive Secretary of the Parliamentary Cybersecurity Front of the National Congress.

PARTICIPATION IN EVENTS AND OFFICIAL MISSIONS

2024 – Mission to Pittsburgh and Washington, D.C.

Brazilian delegation to the United States to share best practices in cybersecurity, with technical visits and bilateral cooperation.

2025 – RSA Conference

Dialogue on cybersecurity, focusing on global trends and advances in national and international digital security agendas.

2025 - EXPOJUD

Follow innovations in technology and digital security within the justice system, strengthening institutional dialogue on cybersecurity.

2025 - Latam CISO Summit

Senators Esperidião Amin (PP/SC) and Sérgio Moro (UNIÃO/PR), together with Carlos Diego, President & CEO of IBDCYBER, announced a proposal for a cybersecurity legal framework and the creation of a regulatory agency, highlighting the urgency of governance, cooperation, and professionalization of the sector.

2026 – DINNER HOSTED BY IBDCYBER – TRIBUTE TO SENATOR JORGE SEIF (PL/SC)

Meeting of authorities and leaders from the technology and cybersecurity sectors with the Rapporteur of Bill PL 4752 (Brazilian Cybersecurity Legal Framework).

2026 – INSTITUTIONAL DINNER HELD IN PARTNERSHIP WITH INSTITUTO VERO MERCADO (IVM)

Bringing together authorities, lawmakers, and experts to discuss the Brazilian Cybersecurity Legal Framework (PL 4752/2025).

FRENCYBER

Parliamentary Front for

Cybersecurity and Cyber Defense

Linked to the Brazilian Institute of Cyber Defense **(IBDCYBER)**, the Front is a non-partisan space for coordination on public policies related to digital security, protection of critical infrastructure, and cyber defense.

Current status -

Front institutionally consolidated;

Bill nº 4.752/2025 — Cybersecurity Legal Framework under active review;

Growing engagement from public institutions and the private sector.

Next steps -

Vote on Bill nº 4.752/2025, at the Science and Technology Committee (CCT);

Progress in discussions on the creation of a National Cybersecurity Authority;

Greater participation from critical sectors and expansion of strategic cooperation;

Development of new bills and regulatory improvements, with support from IBDCYBER.

The bill includes:

- Creation of a national cybersecurity legal framework;
- National program for digital security and resilience;
- Rules for prevention, governance, and incident response;
- Stronger protection of critical infrastructure;
- Creation of a national coordinating authority;
- Strengthening public–private cooperation.

FPCIBERSEG MEETINGS AT THE FEDERAL SENATEL

CCJ approves Cybersecurity Legal Framework

Bruno Lourenço | 11/12/2025, 2:06 PM

The Constitution and Justice Committee (CCJ) approved on Wednesday (10) the Cybersecurity Legal Framework. Authored by Senator Esperidião Amin (PP-SC), PL 4.752/2025 creates a national policy for the protection of public data and the maintenance of essential services in operation in case of digital attacks. The rapporteur, Senator Hamilton Mourão (Republicanos-RS), highlighted the creation of a national cybersecurity authority. The proposal will now be analyzed by the Science, Technology, Innovation and Informatics Committee (CCT).
